D I S C U S S I O N

The Public Works and Utilities Department has received a request for a use of public right-of-way for the installation of outdoor seating at 808 "P" Street. To provide this outdoor seating would require the construction of a raised deck in the right-of-way.

The applicant's proposed drawings show a 8'-5" wide deck. There is an existing street light in the sidewalk area adjacent to the area of the proposed deck. Referring to the attached drawing, it shows 6' between the south edge of the deck to the centerline of the street light. Lincoln Municipal Code Chapter 14.50 states that 6' of clear sidewalk be provided. Public Works will recommend approval of this request if the width of the proposed deck is reduced or the street light moved to allow the 6' width of sidewalk between the deck and the street light.

This proposed deck will occupy approximately 269 square feet of public right-of-way.
